

Coopers Premium Light is brewed using traditional raw materials and brewing techniques. The aroma is clean and fresh with up-front malt characters, subtle fruity esters and late floral and grassy hop notes. The flavour is soft and malty with a noticeable mouth feel followed by a sweet middle palate, finished with a medium to light body and a crisp, mild after-bitterness. Welcome to a premium low-alcohol lager that does not sacrifice on flavour.

If you're the type to enjoy a crisp lager in the heat of summer or a refreshing low-carb beer, you should get to know our extended family. Coopers Lagers are an effervescent kind of beer which are light in colour and body and have been conditioned at low temperatures.

COOPERS PREMIUM LAGER

ENJOY RESPONSIBLY

Coopers Premium Lager is brewed using traditional raw materials and brewing techniques, for a refreshing flavour with a good balance of malt and hop characters. Subtle fruity esters combine with a blend of Pride of Ringwood and Saaz hops to produce a crisp, golden lager. The flavour is smooth and malty, followed by a firm middle palate and finished with a medium body and a crisp, non-lingering after-bitterness.

If you're the type to enjoy a crisp lager in the heat of summer or a refreshing low-carb beer, you should get to know our extended family. Coopers Lagers are an effervescent kind of beer which are light in colour and body and have been conditioned at low temperatures.

Coopers Dry delivers on the promise of refreshment in the form of a low-carb, fine filtered beer. With less residual carbohydrate than other beers in the market, Coopers Dry displays a clean, crisp taste with thirst quenching drinkability. A refreshing citrus taste of lime and lemon combined with subtle floral aroma notes allows this beer to be paired with a wide range of food all year round.

If you're the type to enjoy a crisp lager in the heat of summer or a refreshing low carb beer, you should get to know our extended family. Coopers Lagers are a kind of effervescent beer which are light in colour and body and have been conditioned at low temperatures.
