

You can't go wrong with a Coopers Original Pale Ale. Fruity and floral characters balanced with a crisp bitterness gives this 'perfect for all occasions' ale its compelling flavour.

NATURAL CONDITIONING

One of the things that give our ales that unique Coopers flavour and cloudy appearance is a process called natural conditioning.

To achieve this, we add a small amount of live yeast to our beer just before packaging. This causes a secondary fermentation in the bottle or can, which carbonates the beer and eliminates the need for any preservatives or additives.
